We now enter the golden period as the 2nd half of the season begins. The form is known and the big money players enter the arena. You owe it to yourself to get onboard and try this until the end of the current season. You will be trading 4-6 times a week maximum and the returns on your time invested are phenomenal.

### What will your bank be worth by the end of May 2024?

We are averaging around 30% returns this season per month, which means the following for these bank sizes....

£500 would be worth £2,224 by the end of May 24

£1000 would be worth £4,448 by the end of May 24

£5000 would be worth £22,242 by the end of May 24

This assumes 30% bank growth compounding after every trade

Whichever way you cut this system you come out smelling of roses all you have to do is follow simple instructions and you will make money and that's what we all want.

No other sports betting product on the market today can give you these sorts of returns and all you do is follow some very simple instructions.

### Happy New Year....

Well, it's that time of year when we all start making those New Years resolutions. Most people will say a bit more extra cash in my pocket will do just fine.

Let me bring your thoughts back around to my ultra low risk horse racing Lay and Back bets giving you the warts and all results for 2023 and show you what we will be doing in 2024.

January 2023 +18% Bank Growth

February +20% Target Made

March +20% Target Made

Also, in December we did a trial on a simplified staking system where you just place 5% of your 20 point bank on each selection and here are the results below.... which were fantastic delivering 16% bank growth:

My Horse Racing Systems Low Risk Lay & Back....BIG YES

We don't promise you instant riches overnight but if you stick with us through thick and thin the returns will come.

Slow and steady wins the race....COMPOUNDING IS KEY.

Here are some simple examples of what you can achieve with returns of 20% on various bank sizes, which assumes you compound after every trade and does not include the New Cousin Pete Back Bets

£500 Betting Bank in 12 months compounding at 20% a month - bank size after month 12 £5,446.00

£1000 Betting Bank in 12 months compounding at 20% a month - bank size after month 12 £10,892.00

£5000 Betting Bank in 12 months compounding at 20% a month - bank size after month £54,462.00

As you can see the above these figures are life changing for some people but you have to have a plan and stick to it.

The figures just above are best case scenario some months you may not make those numbers so it may take a couple of extra months to hit the target but it WILL happen.

We have an edge over the market and it has been consistent going back through past results for nearly a decade now.

Think about that for a minute if you follow these selections to the letter a £500 bank in 2 years time could be worth over £54,000.00, which is how financial traders make their fortunes by exploiting small edges in the market not getting greedy and they just keep doing it over and over again.

### New Year Jokes to try and make you laugh!!

Every year on New Year's Eve, when everyone's counting down the final 10 seconds to ring in the new year, I get up off the couch and stand up. I stand up and raise my left leg and just leave it raised for a little while until the countdown finishes and midnight strikes so that I always start the new year off on the right foot (groan)

My wife still hasn't told me what my New Year's resolutions are.

My brother's New Year's resolution is to move out of my parents' house. You'd think after 49 years, he'd try another one!!

My New Year's resolution is going well, I've given up chocolate! Not thinking about it, it's not even in my vocadbury.

If 2023 was a person, I'd sue him for pain and suffering and lost wages!

What did the woman say when she was offered a raisin on New Year's Eve? "No thanks, I already have a date."

A woman took an afternoon nap on New Year's Eve. When she woke up, she told her husband, "I just dreamed that you gave me a diamond ring for a New Year's present. What do you think it all means?" He replied, "Aha, you'll know tonight!" At midnight, her husband handed her a small gift-wrapped present. Excited, she opened it quickly, but was even more surprised: In it was a book titled The Meaning of Dreams.

### The Life of a Trader

This is going to be a very interesting year, as I will be launching my "Brand New" to market system that was created based on member's feedback.

# It's Been 2 Years in The Making Delivered Fantastic Results Covers 9 Different Sports The Best Thing About It Is We Do Virtually Everything for You

My trading profits ended at £139,000 for the year, which was slightly less than I thought I would achieve, although that is because I took a long 2 months holiday this year, so this meant that I did not trade as much as I normally would do.

What I will be doing this year is trying to do a bit more however I know that most members know it is difficult sometimes, as you need to make time for family otherwise you get moaned at especially from my Uncle Arthur who is 96 years old this year.

Christmas day was quite a challenge, as I cooked 2 turkey crowns along with roast potatoes and parsnips, which I then transported along with all the veg plus everything else that goes with Christmas dinner by car in containers down to Uncle Arthur's to reheat or heat up in the microwave all a very well-planned organisation.

However, what I did not plan for was the fact that Uncle Arthur's microwave would be so old and confusing, which really did screw things up, as I had to much food to heat up and cook, so it all turned out to be a bit of a disaster especially when my uncle is on the receiving end.

Firstly, he said when did you cook this turkey, as it tastes like cardboard, which was quickly followed by my goodness these peas are like bullets and then he started to moan about pretty much everything that I had done.

Now I have been on the receiving end of some rough meals over the years, although I would always say that it was nice even if it did taste like crap, but not my uncle Arthur he just went on and on about how this was his worst Christmas ever and complaining about all aspects of the dinner plus was I trying to end his life with this food.

I did realise it was pretty poor and I am sure some relatives would say well if you don't like it you can do your bloody own next year, but I could never do that and the good news was that Boxing day I did a salad meal with fresh meats and new potatoes, which did go down very well with my uncle so all ended fine....at least he liked his presents plus lessons learned for next year. Looking forward to updating you on our GROWING success next month...
Kind regards Tony
